- Their ability to answer questions in a concise manner that is easy to understand.
- The TA did a great job of answering questions and explaining difficult topics.

- his enthusiasm
- effective communication of what is expected
- He was very willing to help and was really up beat and positive
- I like how the TA described the content and I was given great help to understand the material as well as completing the lab.
- His ability to empathize with and explain to students
- I liked how prepared he always came to class. I felt like he knew his stuff and was good at explaining it to others. He also didn't just read off the power points he had things to add that helped my understanding.
- His overall understanding of the material and his drive to help the class. Honestly, one of the best TA's I've had. He answered emails promptly, helped me when I was in a fix, and stayed after class to help anyone who was struggling. He is a big reason why I have a good grade and know what's going on.
